### **Describe your company in a few words :**

Le Concert étranger is a Paris based ancient music ensemble that celebrates 10 years of activity in 2016 with some important projects.

Among them the last part of Bach's Passion cycle at Ambronay festival, Saint-Matthew Passion will be performed in October and the release of our CD *Conversation avec Dieu*.

Le Concert étranger propose different kind of formations, from a 5-musician-group to an orchestra with choir. Some projects ally music to staging, dance, visual arts or poetry, expressing the will of musicians to renew the classic form of concerts.

Le Concert étranger not only aim at meeting new venues for performing programmes, but also residency places, creation or experimentation places. What matters a lot to them is to come together when meeting a new venue, discovering its history, architecture and audience. They create and adapt project accordingly.
